

NanoTrends 2016

The 4th International Forum on Trends in
Nano-manufacturing

2016.10.26~28 Suzhou China

Welcome to NanoTrends 2016!

Nano-manufacturing has been thriving as an emerging technology during recent decades. After the successive success of the previous three forums held in Hefei in 2011, Suzhou in 2012 and Nanjing in 2014, NanoTrends 2016 will be held in Suzhou in October. This forum is intended to provide a platform for illustrating the latest research achievements among academics, research institutions, and industries, and to discuss the future trends in nanomanufacturing. Leading scientists and researchers around the world will be invited to present their state-of-the-art research and foresight thinking. In addition, an exhibition of the main steam equipment and instruments used in nano-manufacturing will be arranged at the site of this forum.

Topics of interest for submission include but are not limited to:

1. Trends in nano-manufacturing
2. Nano-manufacturing for new energy sources
3. Nano-manufacturing in biomedicine
4. Nano-manufacturing for environment
5. Nano-manufacturing for micro and nano
6. Laser and other advanced technologies in
7. Platform and facilities for nano-manufacturing
8. Nanometrology and standardization
